

TENSOR

Reliable biometric technologies to assist Police authorities in combating terrorism and organized crime

Further advance the use of biometric technologies by security practitioners

Strengthen the acceptance of forensic evidence in court.

Support policy-making on the use of biometric technologies, considering the legal and ethical framework.

Improve EU investigation capabilities to fight terrorism and serious crime.

Train forensic practitioners on the use of state-of-the-art technologies & methods.

Start Date
01/01/2023

End Date
31/12/2025

Topic
HORIZON-CL3-2021-FCT-01-05 –
Modern biometrics used in forensic science
and by police

Total cost
€ 5 739 725

EC funding
€ 4 562 975

TENSOR platform evaluation will take place during the below pilot validation campaigns:

Evidence collection through intelligence derived from correlated physiological and behavioural biometrics based on CCTV footage

Unlocking criminal's smartphone devices leading to the extraction of stored biometrics data

Biometric data protection and secure exchange in a cross-border scenario
